

# Software Engineering-CMSE

## Fall Semester 2021-2022 Undergraduate Courses

CMSE100 - Introduction to Software Engineering

CMSE107 - Foundations of Software Engineering

CMSE201 - Fundamentals of Software Engineering (Gr.01-02)

CMSE222 - Introduction to Computer Organization

CMSE321 -A- Software Requirements analysis and Specifications

CMSE353 - Security of Software Systems (Gr.01-02)

CMSE354 - Database Management Systems

CMSE400 - Summer Practice

CMSE405 - Graduation Project -I/II

CMSE406 - Graduation Project -II/II

CMSE418-A Internet Programming

CMSE423 - Embedded System Design

CMSE424-A- Introduction to Image Processing(TE)

CMSE471 Automata Theory

CMSE473 - Software Process and Management

CMSE491-A - Selected Topics in Software Engineering I(TE)
